# Planning Project Overview

• Town Board Budget Retreat 2017

### ANTIQUITY COMMERCIAL (CATAWBA/ZION)

- 0.887 Acres
- Zoning: TC-CD
- Administrative Staff Approval

#### MAMA'S PIZZA (SOUTH MAIN/HICKORY ST)

- 0.887 Acres
- Existing Zoning: NMX
- Proposed Zoning: TC-CZ
- Existing Use: Pizza Restaurant (+/- 2,200 sf)
- Proposed Use: Restaurant + Commercial (5,250 sf)
- Town Board Public Hearing: June 5th

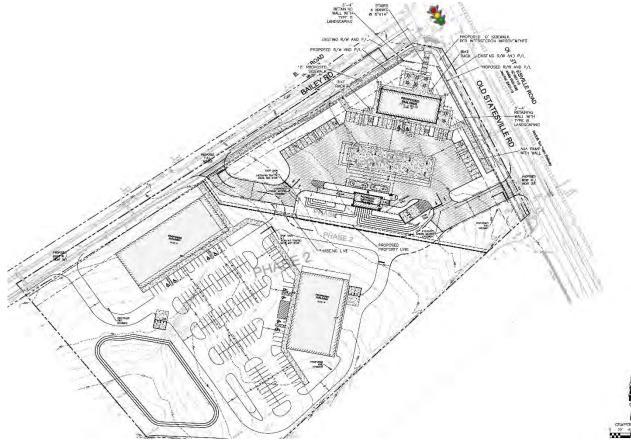

## **CIRCLE K (BAILEY ROAD/HWY 115)**

- +/- 3.25 Acres
- Zoning: CZ
- Proposed Use: Convenience Store
- Estimated Completion Date: April 2017

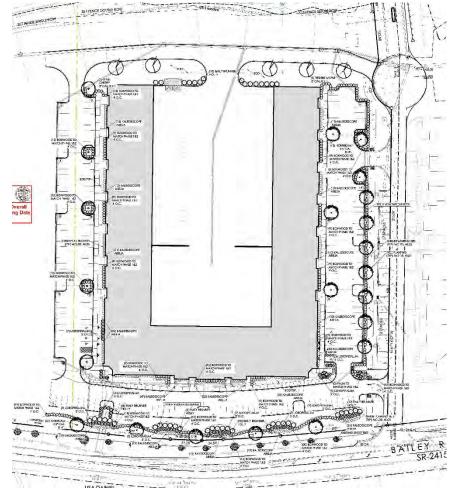

### HYDE PARK (BAILEY ROAD)

- +/- 33 Acres total (5 parcels)
- Zoning: IC
- Storage and flex space
- Building 300 just completed in 2016
- Building 400 approved, estimated Completion Date late 2017
- Administrative staff approval

### **SWEET MAGNOLIA ESTATE (BAILEY ROAD)**

- +/- 3.25 Acres
- Zoning: CZ
- Proposed Use: Wedding & Events Facility
- +/- 9,000 square foot bldg. w/ outdoor assembly
- Estimated completion: summer 2017

3'-0"

-0\*

### OAKHURST II

- +/- 3.05 Acres
- Zoning: CZ
- Proposed Use: Restaurant, Office, and Commercial
- +/- 33,000 square feet (three buildings)
- Construction documents just submitted
- Cowboy restaurant to open early 2018

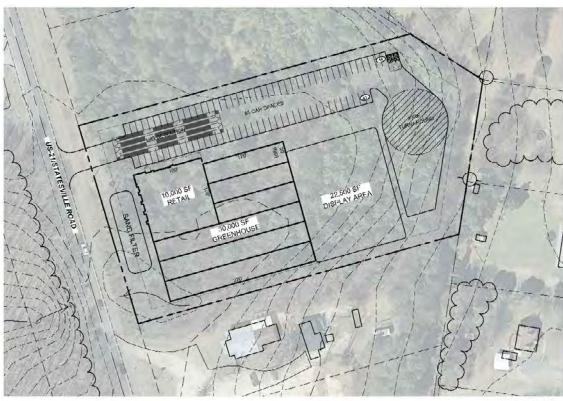

### PIKE'S NURSERY (STATESVILLE RD-HWY 21)

- 3.68 Acres
- Zoning: HC
- Proposed Use: Nursery Center w/Greenhouse
- +/- 10,000 sf building, 30,000 sf greenhouse, 22,500 sf display area
- Administrative staff approval

SCALE: 1"=60"

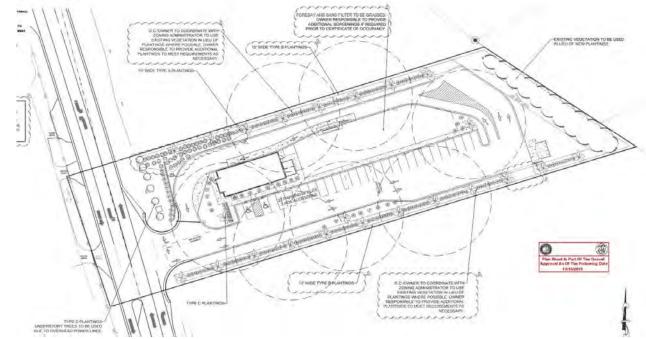

### ARBY'S (STATESVILLE RD-HWY 21)

- 1.82 Acres
- Zoning: HC
- Proposed Use: Restaurant w/ Drive-Through
- +/- 2,500 square foot building
- Administrative staff approval
- Estimated completion: fall 2017

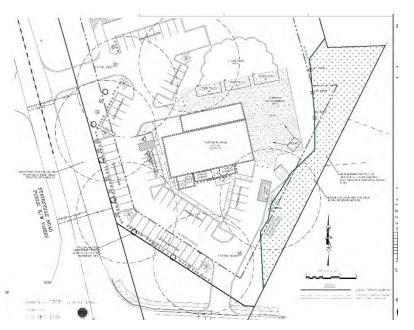

## **BOATYARD EATS (HWY 21 & WESTMORELAND)**

- 3.6 Acres
- Existing Zoning: HC
- Proposed Zoning: CZ
- Proposed Use: Restaurant & Events Venue
- Town Board Public Hearing: April 3<sup>rd</sup>

### **DB HOLDINGS**

- +/- 5.62 acres
- Existing Zoning: HC, AS-O
- Proposed Zoning: CZ (AS-O)
- Existing Use: Automobile & Boat Storage & Wash Area
- Proposed Use: Automobile Sales, Service and Storage
- Phase 1: 22,850 sf
- Phase 2: additional 4,000 sf of showroom and carwash
- Town Board Public Hearing: March 6<sup>th</sup>

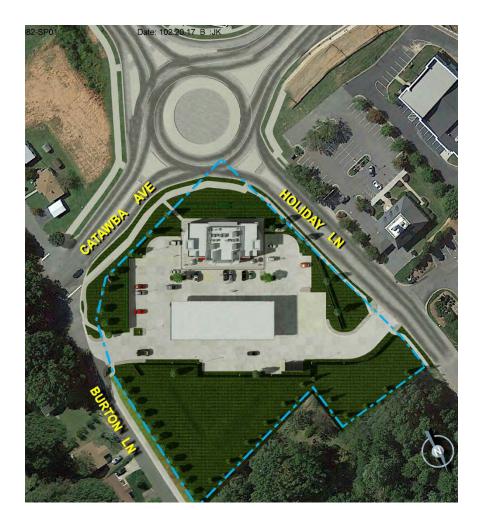

### **QUICK TRIP (CATAWBA/HOLIDAY LN)**

- +/- 3.16 Acres
- Existing Zoning: HC, NMX, NR
- Proposed Zoning: CZ
- Existing Use: convenience store, restaurant, and single-family
- Proposed Use: 5,773 sf convenience store
- Town Board Public Hearing: April 17th

### WENDY'S RESTAURANT

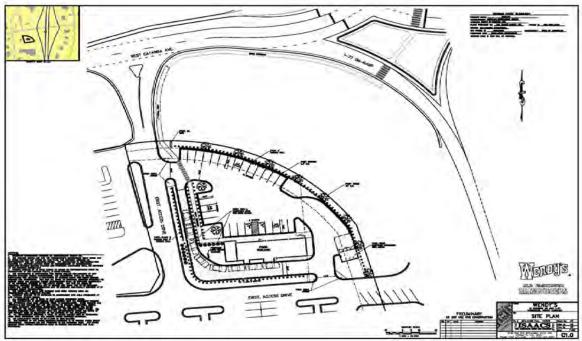

- +/- 0.95 Acres
- Administrative staff approval
- Planning Board granted variance on 2/27

Wendy's

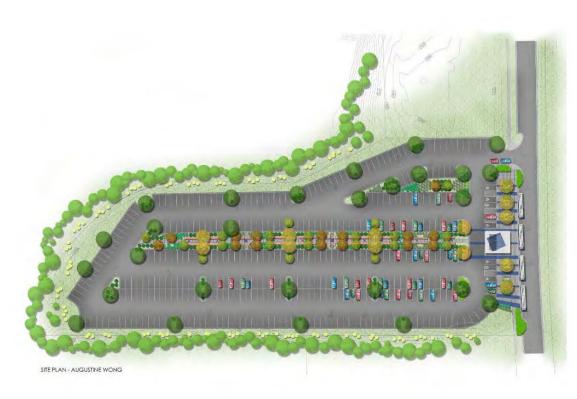

### CATS PARK & RIDE LOT

- 4.285 acres
- Zoning: HC
- Proposed: Park and Ride Facility
- +/- 250 sf shelter bldg. & 355 parking spaces
- Administrative staff approval
- Estimated completion: fall of 2017

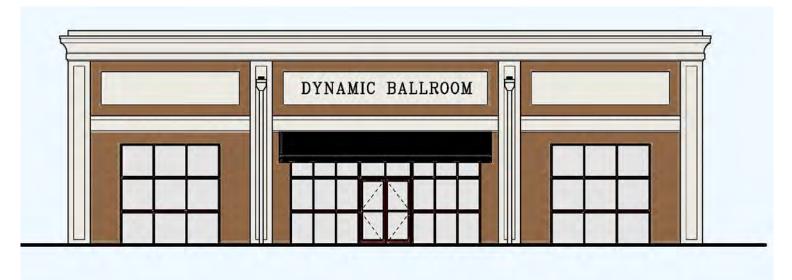

PERSPECTIVE VIEWS - IVAN DEPEÑA

#### **DYNAMIC BALLROOM**

- 0.47 Acres
- Zoning: VC
- Proposed Use: Dance Studio
- 3,800 square feet
- Administrative staff approval

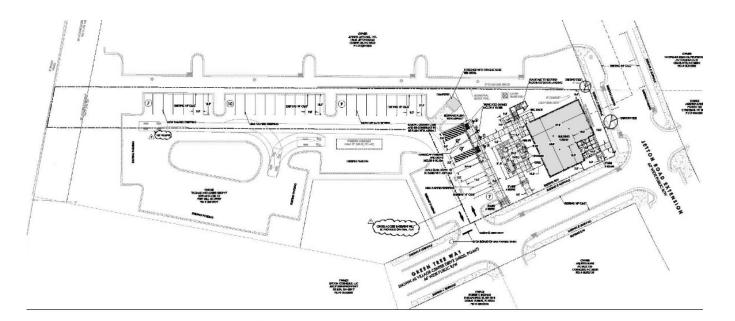

## **SOUTHERN CROSS AVIATION**

- 0.602 Acres
- Zoning: VC
- Proposed Use: Office Building
- +/- 5,000 square feet
- Administrative staff approval

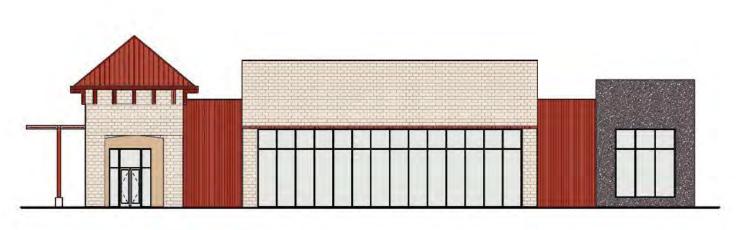

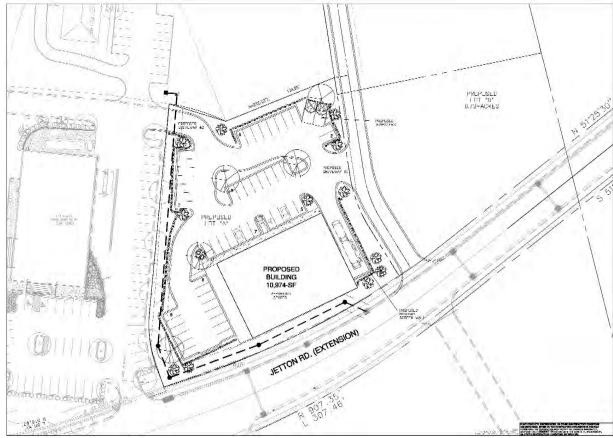

#### LAKE NORMAN HARDWARE

- 2.12 Acres
- Zoning: VC
- Proposed Use: Hardware Store
- 10,974 square feet
- Administrative staff approval

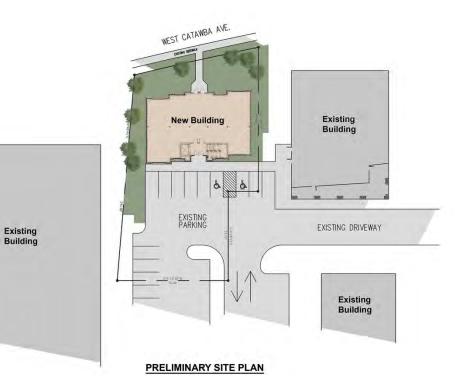

#### **CATAWBA BETHEL BUILDING**

- +/- 0.287 Acres
- Zoning: VC
- Proposed Use: Two-Story Office Building
- 5,446 square feet
- Administrative staff approval

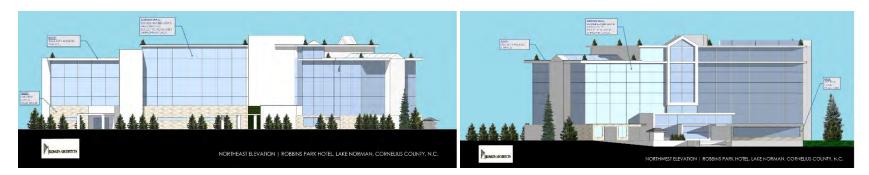

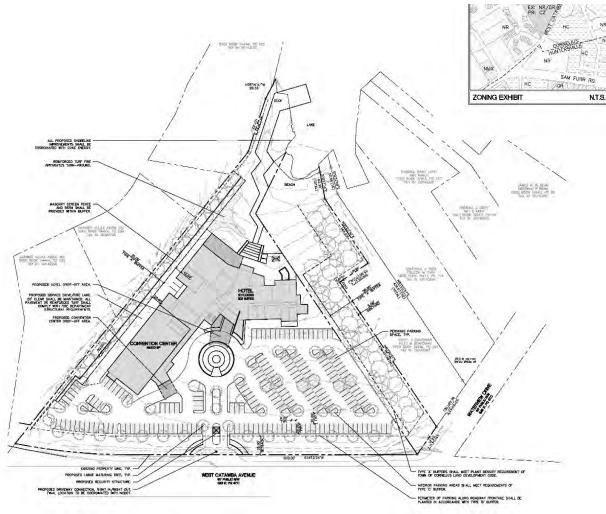

## **ROBBINS PARK HOTEL (original plan)**

- +/- 6.165 Acres
- Proposed Use: Hotel & Conference Center
- 320+ hotel rooms w/ 11,900 square foot conf. center
- New plan submittal expected in next month
- No conference center and 145 rooms

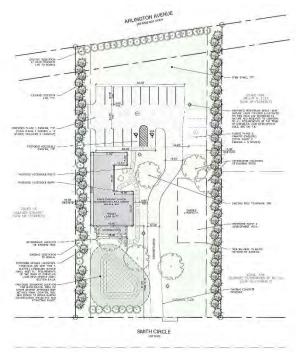

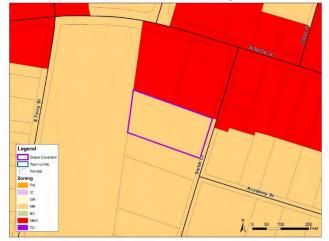

#### **GRACE CARE CENTER (SMITH CIRCLE)**

- 0.959 Acres
- Zoning: Neighborhood Residential
- Use: Community Center, Offices and Bike Repair shop

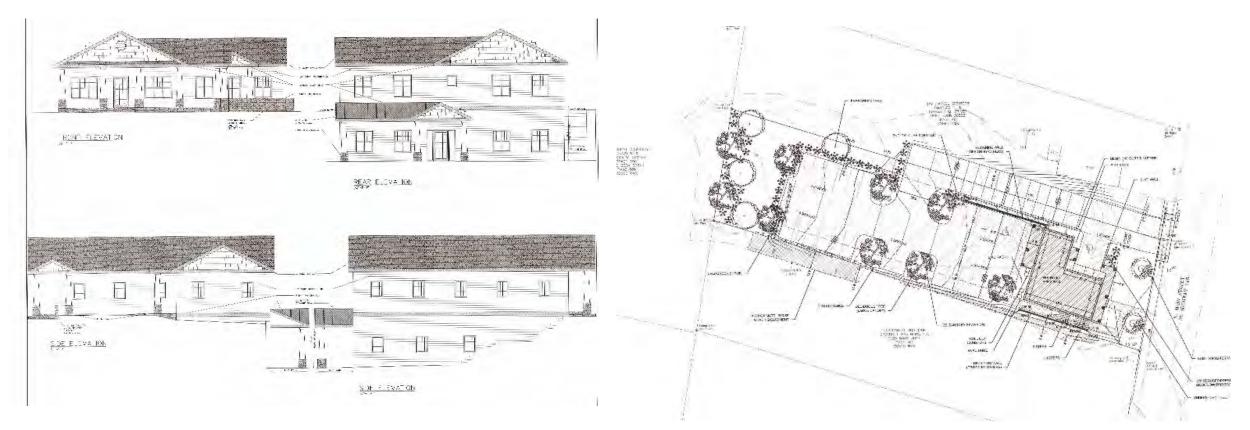

Grace Covenant Care Center - Zoning

#### **BELLE ISLE SALON (N. MAIN ST.)**

- 0.517 Acres
- Proposed: Salon on basement level, commercial on ground floor
- Will demolish existing house first, new building will be about 3,600 square feet
- Proposed completion: 2018

Town of Cornelius Bonds Phase II March 8, 2017

# Phase II Bonds

Street Bonds	Park Bonds	Town Center Redevelopment Bonds
\$5,665,000	\$1,050,000	\$4,000,000
Bailey Rd. Realignment/Misc. Projects	Smithville Park/JV Washam Elementary Greenway	Cornelius Arts & Community Center

# Tentative Phase II Bond Sale Calendar

May 20, 2018	Information due from the Town to LGC

## 2017-2018 Budget/CIP Request

### **Budget Request**

- 4 Additional Personnel \$380,000
- Equipment Replacement/Maintenance \$60,000

### **CIP Request**

- Replace Engine 3 \$675,000
- Replace Chief's Vehicle \$55,000
- Land for Station 3/Training Facility Cost Evaluation

### Reasons for 2017-2018 Request

- This year our focus is manpower, apparatus, equipment replacement, and land.
- Increased manpower is essential to provide the service needed for the Town of Cornelius.
- The call volume, population, and area construction continue to increase.
- Overlapping calls are averaging 50% in the last 2 years.
- Call volume in specific fire demand zones have increased showing a need for an addition station on the west side of the interstate. (Westmoreland Road/Catawba Avenue)
- Therefore, we are requesting land for Fire Station 3 and a Training Facility.
- Apparatus replacement must remain in a time cycle for replacement.
- Engine 3 is due for replacement this year.
- By funding the Cornelius-Lemley Fire department with equipment, apparatus, manpower, stations, and training facilities, the Town of Cornelius will address the increase in demand and level of service needed.

### Personnel

# Increase coverage an additional 4 shifts- 24/7 (\$380,000)

Calendar	Total Number of		Mutual Aid	Mutual Aid	Cornelius	Percent Increase for Cornelius	Time on	Turn Out	Response	Overlapping
Year	Calls	Call Volume	Given	Recieved	Calls	Call Volume	Calls	Times	Time	Calls
2013	2484		473	303	2011		18 minutes	1:33	4:54	29%
2014	2517	1.32%	420	301	2097	4.27%	22 minutes	1:29	4:55	27%
2015	2722	8.14%	423	253	2299	9.63%	21 minutes	1:26	4:50	55%
2016	2970	9.11%	475	285	2495	8.53%	22 minutes	1:26	5:10	46%

# We need to increase Personnel:

- ✓ Handle overlapping Incidents
- ✓ Meet NFPA Standards
- ✓ Respond to in-district Calls
- Maintain current staffing and operations
- Sustain a volunteer/combination department
- ✓ Accommodate Lake EMS services

Total Cost \$380,000 AT MINIMUM 2 PEOPLE AT \$190,000

## Equipment Replacement/Maintenance \$60,000 Budget Increase

- In-service equipment must be replaced with new technology, wears out, or cannot be fixed. Examples of aging equipment: Thermal Imaging cameras, suction units, ropes, rope hardware, computer software/sonar upgrade, I-Pads, gas meters, and hose are just a few of our replacement items.
- New equipment is purchased as our department grows. This equipment helps with the everyday issues we face on incidents. The incidents and changing responsibilities as a fire department are driving factors. Examples: Cold water gear, PFDs, and throw bags are needed for the lake after taking over EMS responsibilities.
- Maintenance has continued to increase as the fleet gets older. The newer trucks are more computer based and have emission requirements. This also has escalated the cost of maintenance.

#### <u>CIPS</u>

### New Engine/Replacement of Engine 3 \$675,000

#### <u>Current</u>

- Engine 3 is a 1995 Seagrave that has performed exceptionally.
- Normal life expectancy for an engine is 10 years front line, 10 years as a back up, and 5 years in reserve.
- A five year rotation of engine companies is ideal for this department.
- NFPA 1901 gives an engine up to 25 years of service as a reserve before requiring recertification to continue service at a large expense.

#### <u>Replacement</u>

• The amount of \$675,000 includes the apparatus, delivery fees, travel expenses, radio up-fit, graphics, light package, emergency warning devices, and all new equipment to place it in-service.

## Replace Chief's Vehicle \$55,000 (Chevrolet Tahoe, F250, Ford Expedition)

### <u>Current</u>

- Chief's vehicle is a 2004 Dodge Durango.
- This SUV is starting to have mechanical issues: Burning oil, transmission slipping, and water leaks.
- It is fire apparatus that often does not get to warm up creating wear and tear.

#### **Replacement**

- A larger SUV/Truck for use as a command vehicle: Tahoe, Expedition, F250.
- Replacement cost would include: Base vehicle price, red paint, light package, rear compartment upgrade, siren package, radio up fit, airpack bracket, and all graphics.

### Hydraulic Tools (E-Draulics) - \$60,000

- Six additional tools are needed to better support the rescue efforts that continue to increase: Two cutters, two spreaders, and two rams.
- E-Draulics are battery operated and give the same cutting forces as hydraulic systems. They are mobile and can be placed in service without requiring a truck to assist.
- The tools will be placed on two apparatus to serve as front line equipment for extrications, forcible entry, lifting, spreading, and cutting.

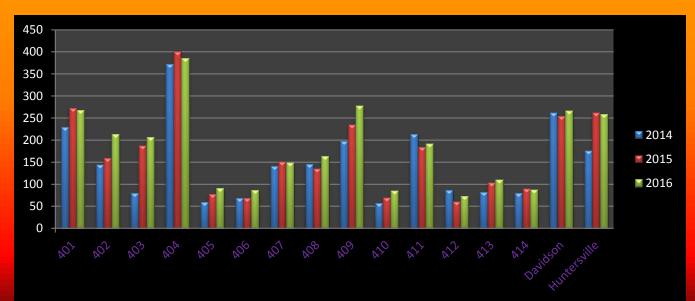

### Land for Station 3/Training Facility Cost Evaluation ~ \$1,500,000

• CLVFD is requesting the purchase of land for a third fire station, satellite police station, and training facility.

### **Reasons for Station/Training Facility**

- Call volume has increased in the Westmoreland Rd/Catawba Ave. area.
- Overlapping calls are creating voids.
- The changing infrastructure and construction in this area is increasing.
- Currently we are not serving areas in the town limits of Cornelius for EMS: Forrest Shadow Neighborhood, Catawba Ave. to Hwy 73 past Vineyard Point to Sterling Pointe.
- Land is undeveloped and more cost efficient prior to development.
- A training facility can provide classroom and hands on activities in a realistic setting for Fire, Police, EMS, and our community.

	Calls	Per	Year	Percent
Fire Demand Zone	2014 (2517 calls)	2015 (2722 calls)	2016 (2970 calls)	Increase
401 - Station 1	230	272	268	16.5%
402 - Station 1	144	159	213	47.9%
403 - Station 1	80	187	207	158.8%
404 - Station 1 (3)	372	401	386	3.7%
405 - Station 1	59	77	91	54.2%
406 - Station 2	69	69	87	26.1%
407 - Station 2	141	151	149	5.7%
408 - Station 2 (3)	145	135	163	12.4%
409 - Station 2 (3)	198	235	278	40.4%
410 - Station 2	57	70	85	49.1%
411 - Station 2	214	184	192	-10.3%
412 - Station 2	87	61	73	-16.1%
413 - Station 2 (3)	82	104	111	35.4%
414 - Station 2 (3)	80	90	88	10%
Davidson - Station 1	262	254	267	1.9%
Huntersville-Station 1,2,(3)	176	262	259	47.1% (-1.2%)

### Summary for 2017-2018 Budget

- Our goal at CLVFD is to advance our department to meet the needs for the ever-changing environment around Town of Cornelius. This is a joint effort and must be accomplished together.
- We have addressed and requested:
  - 1. Manpower To increase by 4 personnel.
  - 2. Apparatus Purchase of new engine and maintain 5 year rotation of apparatus.
  - 3. Equipment replacement/Maintenance Increase base line budget to address issues.
  - 4. Additional CIP's Additional hydraulic tools requested. Emergency light.
  - 5. Purchase of Land Station 3/ Training Facility/ Satellite Police Station / Community Room Answer the need due to increased call volume and overlapping calls.
- Thank you for your support!

# **Contact:**

Neal Smith nsmith@corneliusfd.org 704-634-1941 (Cell) 704-892-1544 (Station)

# **Staffing: Records Function**

# Summary

- Law enforcement records are very much like the health care industry in that it is heavily regulated (privacy, FOIA, standardized reporting).
- More importantly, our records are the basis for our prosecution of cases, which means victims depend on it.
- Every report that comes into our system has to be coded properly to ensure we report correctly. This coding cannot happen in the field.
- We have always had 1 FTE in this unit despite our growth and we have struggled with data integrity.
- It takes much more than 1 FTE to do all the work that is required, so sworn personnel, supervisors, and dispatchers have stepped up when they could.
- However, we have reached a point where we have to add staff

# **RMS – Much more than a Report**

### The RMS system is made up of many components

#### **Master Indices**

- Name Index
- Master Vehicle Index
- Master Property Index
- Master Location Index
- Master Organization Index

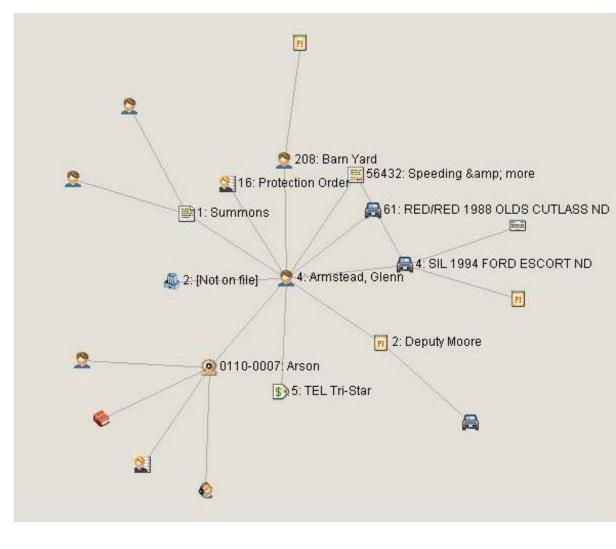

Master Indices are critical to our system. Each maintains a unique record, which must be manually maintained to ensure there are no duplicates in the system.

For example, when we have a person's name and we have them alerted as a violent domestic offender, we have to make sure if that person is stopped and his name or date of birth is entered wrong, his address has changed, or he has changed hair color, tatoos, etc., that we properly identify those changes. Otherwise we end up with two different people in the system that are actually one and the same. The same applies to every one of those indices.

# RMS – Much more than a Report

Indices are what drive our link analysis and they have to be constantly maintained

# **RMS – Inflows**

### Xfers in from CAD

### Incident Reporting

- Initial Incident Report
- Supplemental Report
- Report Review Changes

### Investigative Case Management

- Investigator Assignments
- Case Progress Codes
- Investigative Supplements
- Charging Documents
- Case Dispositions

#### Property and Evidence Management

- Collect Property and Evidence
- Vehicle Impound
- Property and Evidence Storage
- Property and Evidence Disposition

#### Warrant

- Receive and Process Warrant
- Verify Warrant
- Warrant Service
- Cancel Warrant

#### Arrest

- Arrest Report
- Arrest Warrant Service
- DWI Arrest

#### Juvenile Contact

- Juvenile Contact Report
- Juvenile Detention Report
- Juvenile Referral
- Crash Reports
  - **Citations Issued**
  - Field Contact
  - Pawn Records
    - Receive and Process Pawn Data
    - Seize Pawn Property
    - Analysis of Pawn Data
    - Regional and State Pawn Reporting

\*\*

# **RMS – Inflows**

### Equipment and Asset Management

- Equipment Receipt
- Equipment Issuance
- Equipment Checkout
- Equipment Check-In
- Physical Inventory/Audit
- Equipment Maintenance
- Equipment Disposal

### Fleet Management

- Fleet Receipt
- Fleet Issuance
- Fuel Log
- Fleet Maintenance
- Damage Reporting
- Fleet Disposal
- Personnel
  - Operational Management
  - Personnel Information
  - Scheduling and Assignment
  - Exceptions

- Duty Roster
- Training and Certification

### RMS External Reporting

- Aggregate Reporting
- Standardized Reporting
- Ad Hoc Reporting

### RMS System Administration

- Security
- RMS Table Maintenance
- Data Management
- Geofile Maintenance

### RMS Interfaces

- CAD Interfaces
- Local/Regional Interfaces
- State/Federal Interfaces
- N-DEx Exchange
- Suspicious Activity Report (SAR) Exchange

# **Other Records Related Functions**

- In addition to the inflows listed, this position also must manage system updates and train new personnel on the use of the system.
- Unrelated to RMS, this position also manages our ID Cards, office supplies, Notary, front desk in the absence of the receptionist and many other functions.

# Conclusion

- This is one of the positions that we do not have a proper succession plan.
- This position is highly trained and we cannot currently substitute another person in this role.
- Recently, the person in our records manager position was hospitalized, and we had no records properly coded for some time.
- We have requested this position before, but it is critically important we address it now. We will still have far fewer clerical positions than departments our size
- I am requesting 1 FTE, entry level, in the position of Records Clerk.

#### Town of Cornelius Operating Budget Goals Request For the Fiscal Year Ending June 30, 2018

		<u>Dept</u>	<u>Mgr</u>
<u>Dept</u>	Goal Description	<u>Request</u>	Recommends
Planning	Finish update to the Land Development Code; anticipate BOC adoption in Sept. 2017	-	-

Project Title:	Program:
Bailey Road Extension	Public Works
Description:	Total Project Cost:
One of the high priority and high cost/benefit ratio projects from the potential Transportation Bond Projects is Bailey Road Extension. Bailey Road Extension also provides an economic development benefit. Bailey Road Extension is a new alignment with termini at the sharp curve in Bailey Road and Highway 21. The length is approximately 1/3 mile, but some realignment of Bailey Road may also be necessary.	<b>\$5,798,000</b> Estimated Impact on Operating Budget:
In FY17, Kimley-Horn began conceptual design, and is continuing to work on that phase to determine a preferred alignment, etc. The current project estimate is \$5,749,000 (Design/engineering fees of \$400,000, Construction Administration fees of \$200,000, KHA construction cost estimate of \$3.264M, Town estimated ROW/easement cost of \$1,685,000, and Town estimated utility cost of \$200,000.) Upon completion of conceptual design, the Town will need to retain an engineer to develop the construction drawings. This is projected to occur in FY18. ROW	Main Goal: Improve Mobility and Increase Transportation Options
acquisition, utility coordination, and construction will follow. It is projected that ROW, utilities, and construction will be funded with Phase II Road Bonds (2013 approved bonds). These phases would likely commence in FY19, with the total project taking 18 – 24 months to complete.	Strategy: #6 Prioritize new roads and widen roads.
	Guiding Principle: #6.4 Prioritize road improvements based on our development needs.

Project Title:	Program:
Diverging Diamond Aesthetic Improvements	Public Works
Description:	Total Project Cost:
Phase I of the DDI Aesthetics are complete. This includes all the Catawba Ave. level improvements, such as landscaping, mast and cable, pedestrian elements, and utility burial.	\$1,390,000
The Town Board has determined that Phase II aesthetics will not include the masonry abutments (due to cost and design concerns), and wants to go in the direction of a landscape-intensive design, in addition to making the existing mast & cable elements more visible.	Estimated Impact on Operating Budget:
In late 2016, the Town retained Viz, LLC to work on the landscaping design. The contract for these services is \$38,880; however, additional engineering services should be planned for (e.g., significant structural engineering). Viz is working with NCDOT on preliminary scoping and will work with the Town and a stakeholder committee to develop a preferred design. It is anticipated that construction could begin as early as Summer 2017, when the I-77 Managed Lanes project is substantially complete in the area of Exit 28; however, the design process may not	Main Goal: Improve Mobility and Increase Transportation Options
finish until after Summer 2017. The earliest construction is likely to begin is Fall 2017. Town staff is estimating that construction may cost \$851,120.	Strategy: #17.1 Improve Access to Interstate 77
existing mast & cables to determine if the previous plans of extending the masts' height and increasing the visibility of the masts & cables (by painting them white) will be compatible with the landscaping design and will fit within the overall project budget. If the Town moves forward with improving the mast & cables, it will need to engage a structural engineer and perhaps other professionals to complete the design work and work with NCDOT. The cost to perform this design and work is unknown, however staff is estimating that this will cost \$500,000 (\$100K for design, \$400K for construction), and is projected to occur in FY19.	Guiding Principle: #1 Complete Diverging Diamond Interchange Implementation, including Aesthetic Improvements
The Town Board has determined that the total project budget for all of the aforementioned improvements is not to exceed \$1.39M. [Note: The Town's DDI Capital Reserve Fund balance (as of January 2016) was \$1,790,000.]

Hwy. 21 Roundabout – Bike/Ped Accommodations, Aesthetics/Utility Burial	Public Works
Description:	Total Project Cost:
The intersection of Hwy. 21 / Catawba Ave. will be improved with a modified 2-lane roundabout. There is an opportunity to aesthetically enhance the roundabout.	\$2,250,000
The Town has instructed NCDOT and RS&H to design the roundabout with water supply and electricity going to the center of the roundabout, in addition to constructing drains and allowing for a foundation in the center. This will allow for flexibility in designing an aesthetic element. The Town should consider the comprehensive design of the entire vicinity, rather than the stand-alone design. The most optimum time to design is during the NCDOT design (commenced January	Estimated Impact on Operating Budget:
2016); however, the design can occur at a later time.	Main Goal: Improve Mobility and Increase
The cost will depend on the design. The Town Board has been comfortable with a \$250,000 cost.	Transportation Options
The Town will also be paying the betterment cost for utility burial. The utility burial will occur in conjunction with the roadway construction commencing in FY19. The Town's preliminary estimate for this project is \$500,000, extrapolated from actual costs for utility burial associated with the DDI. Length of burial is approximately 0.15 miles. [The Town has received a cost estimate of \$33,000 from Electricities for their portion of the burial. The Town is awaiting a cost estimate from AT&T in addition to confirmation from NCDOT of the total cost estimate.]	Strategy: #8 Exit 28 Small Area Plan
The Town will be responsible for betterment costs associated with bike/ped accommodations. It is estimated that these costs will be \$1,500,000. (It is estimated that there are .60 linear miles of bike/ped accommodations at \$2.5M per mile. Included in that unit cost are Multi-purpose paths for the majority of the lengths along both sides of the roads & around the roundabout, replacement of the existing brick paver sidewalks & granite curbing, and bike lanes. NCDOT will at least provide for the cost of replacing sidewalks where they currently exist. It is unclear if all the costs of bike lanes (e.g., 5' vs. 4' bike lanes) and sidewalks on both sides of a road will be covered by NCDOT.) 25% plans are almost complete (as of January 2017). The Town will need to determine as part of the FY18 Budget Process if it will fund utility burial, the multi-purpose paths, bike lanes, decorative street lights, and decorative poles.	Guiding Principle: Develop an Improvement Plan for the US 21 & Catawba Intersection

Westmoreland Bridge		
Reconfiguration	Public Works	
Description:		Total Project Cost:
This project is to reconfigure the lanes on the Westmoreland Road Bridge to allow for a multipurpose path. As one of two ways across the interstate, the Westmoreland Bridge is not pedestrian or bicycle friendly at all. The reconfiguration of lanes would allow for a multipurpose path on one side of the bridge. Included in the project would be asphalt work to align the current lanes to the new configuration, a multipurpose path from Hwy 21 to the future McDowell Creek Greenway crossing, new railing on the bridge and slope protection railings, improve the pedestrian crossing at Westmoreland Road, and some drainage work. This project was a top priority in the Bike! Cornelius Plan. The Town applied for and is slated to receive (pending CRTPO and NCDOT action) TAP grant funds in the amount of \$1.2M, combined with Town match funds of \$540,000 (total project cost of \$1.74M).		\$540,000

Hwy. 21 Widening (A) – Bike/Ped Accommodations and Aesthetics	Public Works
Description:	Total Project Cost:
In FFY20, construction will commence on widening Hwy. 21 (Section A, Northcross Center Ct. to Westmoreland Rd.). The Town will have an opportunity to aesthetically enhance this corridor in conjunction with the widening, with elements such as black powder-coated mast arms, black sign posts, decorative street lights, landscaping, etc. Extrapolating from costs for similar items along West Catawba, Phase I, this cost is estimated to be \$1,341,818 for this 1.2-mile project.	\$3,741,818 Estimated Impact on Operating Budget:
The Town will be responsible for betterment costs associated with bike/ped accommodations. It is estimated that these costs will be \$2,400,000. (It is estimated that there are 1.2 linear miles of bike/ped accommodations at \$2.0M per mile. Included in that unit cost is a Multi-purpose path on one side of Hwy. 115, a sidewalk along the other side, and bike lanes. NCDOT will at least provide for the cost of replacing sidewalks where they currently exist. It is unclear if costs of bike lanes (e.g., 4' vs. 5' bike lanes) and sidewalks on both sides of a road will be covered by NCDOT.)	Main Goal: Improve Mobility and Increase Transportation Options
<ul> <li>(It is not anticipated that Utility Burial will be part of this project.)</li> <li>The Town will need to enter into a Municipal Agreement for these costs.</li> <li>Conceptual design began in late 2016. The roadway project is a design-build project, with right-of-way/utilities/construction scheduled to commence in FY20. The construction is anticipated to be completed in FY22.</li> <li>In FY18, the Town will likely need to decide if it wants to fund the preceding.</li> </ul>	Strategy: 12 Prioritize New Roads and Widen Roads Strategy: 16 Improve Bike lanes and Greenway Trail Connections Strategy: 24 Town Beautification

Project Title:	Program:
Hwy. 115 – North Corridor (Washam Potts Rd. to Potts St.) Bike/Ped Accommodations and Aesthetics	Public Works
Description:	Total Project Cost:
In future years, NCDOT will improve the Hwy. 115 North Corridor (Washam Potts Rd. to Potts St.). The Town will have an opportunity to aesthetically enhance this corridor in conjunction with the NCDOT roadway project, with elements such as black powder-coated mast arms, black sign posts, decorative street lights, landscaping, bike/ped accommodations, etc. Extrapolating from costs for similar items along West Catawba, Phase I, this cost is estimated to be \$1,400,000 for this 1.25 mile project.	\$3,275,000 Estimated Impact on Operating Budget:
The Town will be responsible for betterment costs associated with bike/ped accommodations. It is estimated that these costs will be \$1,875,000. (It is estimated that there are 1.25 linear miles of bike/ped accommodations at \$1.5M per mile. Included in that unit cost is a Multi-purpose path on one side of Hwy. 115, a sidewalk along the other side, and bike lanes. NCDOT will at least provide for the cost of replacing sidewalks where they currently exist. It is unclear if costs of bike lanes and sidewalks on both sides of a road will be covered by NCDOT.)	Main Goal: Improve Mobility and Increase Transportation Options
The roadway project has historically scored well in STI rankings, and upon completion of the current UPWP corridor study that recommends a preferred design, it may receive funding in a near-future TIP, as early as the 2020-2029 TIP.	Strategy: 12 Prioritize New Roads and Widen Roads Strategy: 16 Improve Bike lanes and Greenway Trail Connections Strategy: 24 Town Beautification

Project Title: Pro	Program:
Stream Restoration Project - Upper Pu McDowell Creek	Public Works

Description:	Total Project Cost:	
The McDowell Creek watershed is significant in contributing to the drinking water supply for the majority of Mecklenburg County. The headwaters of McDowell Creek exist in Cornelius and are severely impaired. In 2010, the Town partnered with Mecklenburg County in obtaining a 319 Water Quality Grant (Federal Funds) and rehabilitating approx. 1600' of Upper McDowell Creek. The project was successful and residents were excited and pleased with the project. In addition to the water quality benefits, the completed project provides the Town with the ability to develop a greenway at a reduced cost.	<b>\$176,000</b> Estimated Impact on Operating Budget:	
The Upper McDowell Creek stream restoration project is also in the McDowell Creek watershed. The longer these projects are delayed, chances of receiving funding decreases.		
If awarded, it is estimated that the 319 grant funding would provide up to approx. 50% of funding, and the Town would be responsible for the balance.	Main Goal: Strengthen Citizen Engagement	
Upper McDowell Creek		
<ul> <li>Restoration of 1600' of the creek immediately downstream of the 2010 completed project. (downstream of Animal Shelter and Meck Co. property; upstream of confluence at major system section of McDowell Creek)</li> <li>Total project cost is estimated at \$264,000.</li> <li>Town of Cornelius estimated cost share is 67% or \$176,000.</li> <li>Project includes design/engineering and construction (design would provide for firmer estimates which could affect Town's portion of cost).</li> </ul>	Strategy: #23 Maintain and Improve Town Services	
<ul><li>Water quality improvements</li><li>Future Greenway enhancements</li></ul>	Guiding Principle: #4 Prioritize capital improvements	
It is recommended that this project occurs after the completion of the Willow Pond and Coachmans Woods restoration project due to the time-sensitive Willow Pond HOA land-exchange agreement, available grant funding, and greenway system priority of these other two project alignments.

Total	\$2,901,600			\$16,137,523

# Debt Outstanding

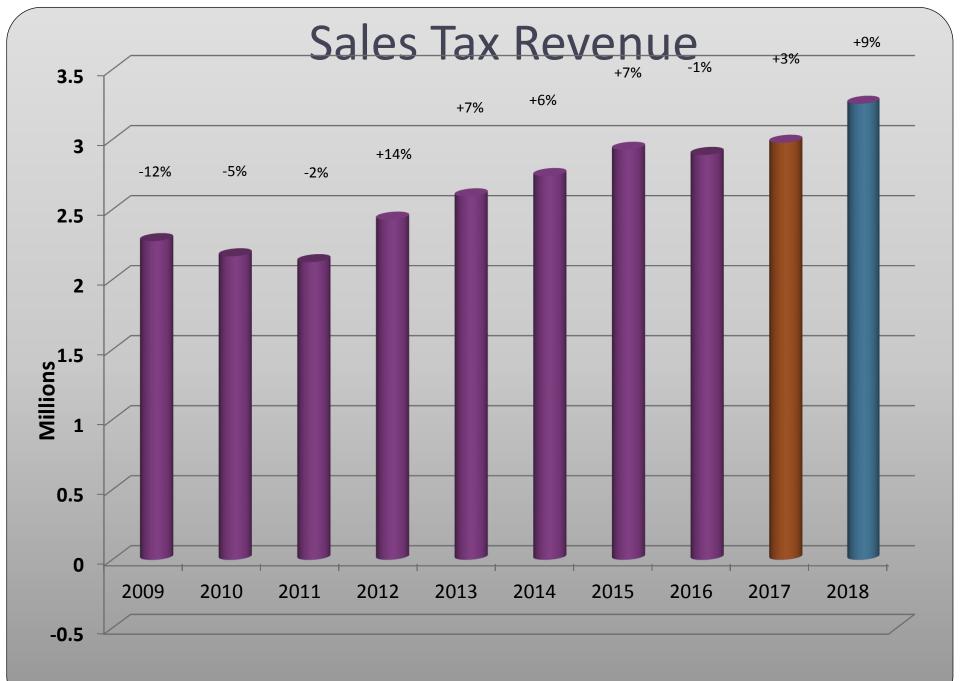

- No debt outstanding at more than 3.70% & 3.59% (allowed to prepay at 1% prepayment penalty of \$11,000 and \$2,212). The payoff balance of these two loans are \$255,603 and \$1,114,166. The combined savings in interest is \$139,967. We could potentially refinance, however, rates are rising.
- WAC has no prepayment penalty and a rate of 2.63% with an outstanding balance of \$791,906.
- Commerce Station loan was discussed at March 6<sup>th</sup> premeeting, and the consensus was to pay off this loan at a rate of 5.19% and remaining balance of \$217,598 if paid by April 1<sup>st</sup>, 2017.

## Bonds

- Voters authorized \$20.4 million
  - Authority to issue remaining \$10.6 million expires November 2020
  - Five year forecast assumes remaining bonds will be issued in FY 2019
    - \$2 million in debt service payments term April June 2018
  - Can get extension from LGC to issue as late as November 2023
  - The Five Year Forecast reflects a \$20 million bond referendum issue in FY 20. If approved, the Town will have two consecutive years of Bond issues.

# FY 17 Budget Revs / Exps

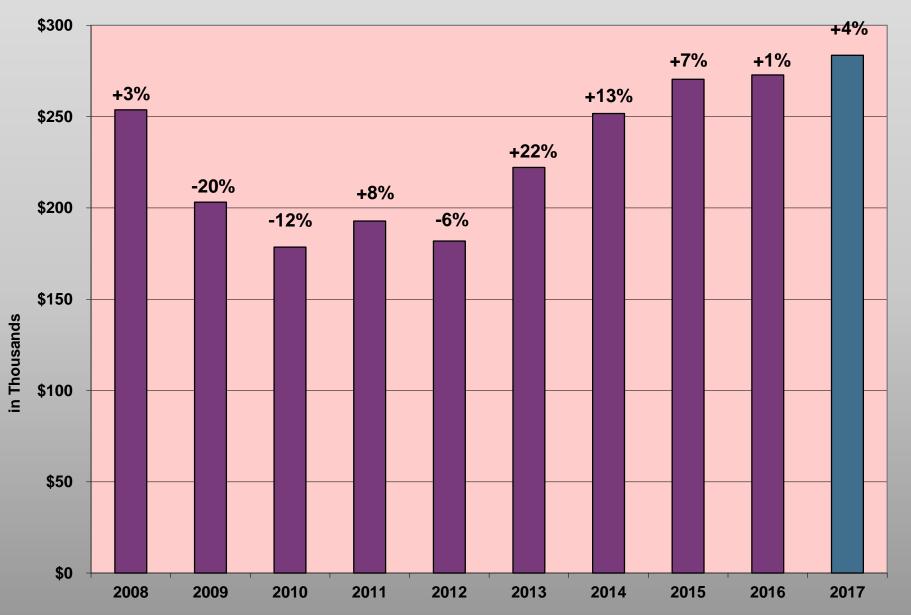

- Interim statements budgeted revenues & expenditures for Jan – March 2017 available in April
- Revenue:
  - Property tax near budget; refunds all but finished with the exception of a minor amount of appeals.
  - Sales tax up 2% over prior year first six months
  - Utility franchise distributions through six months are down 11% from the same time period over FY 16 levels.
- 911 Fund Possible budget amendment April/May

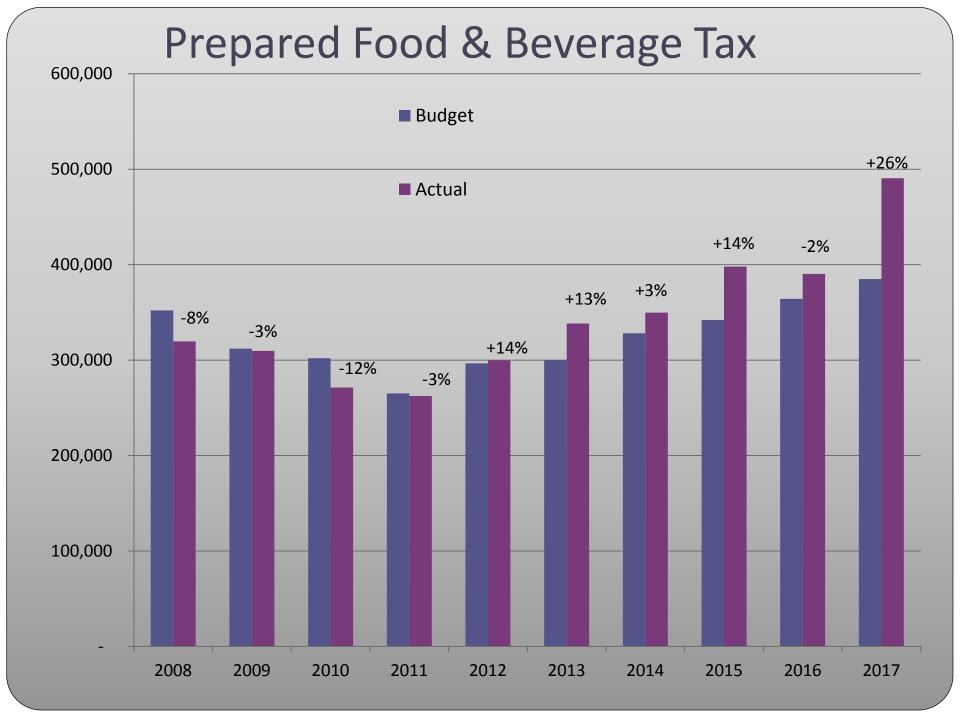

## Electric Fund

- Revenues are at 83% of budget as of March 7.
- Expenditures are at 63%, but May and particularly June purchased power invoice have dramatic impact.
- Kathy Moyer will present operating, capital, and rate structure plan in April .

### **Occupancy** Tax

### FY 2017 Future Finance Agenda Items

- Budget amendment for 911 telephone system upgrade with 911 funds
- Capital Project Ordinance to construct public works facility
- Issue public works facility debt sometime this spring
- Budget amendment for 9/11 Memorial once all anticipated donations are received

### FY 2018 Budget Calendar

- April finalize documents
- May 2 Manager Recommended Budget released
- May 15 Public Hearing
- June Adopt
